那 - 是谁…

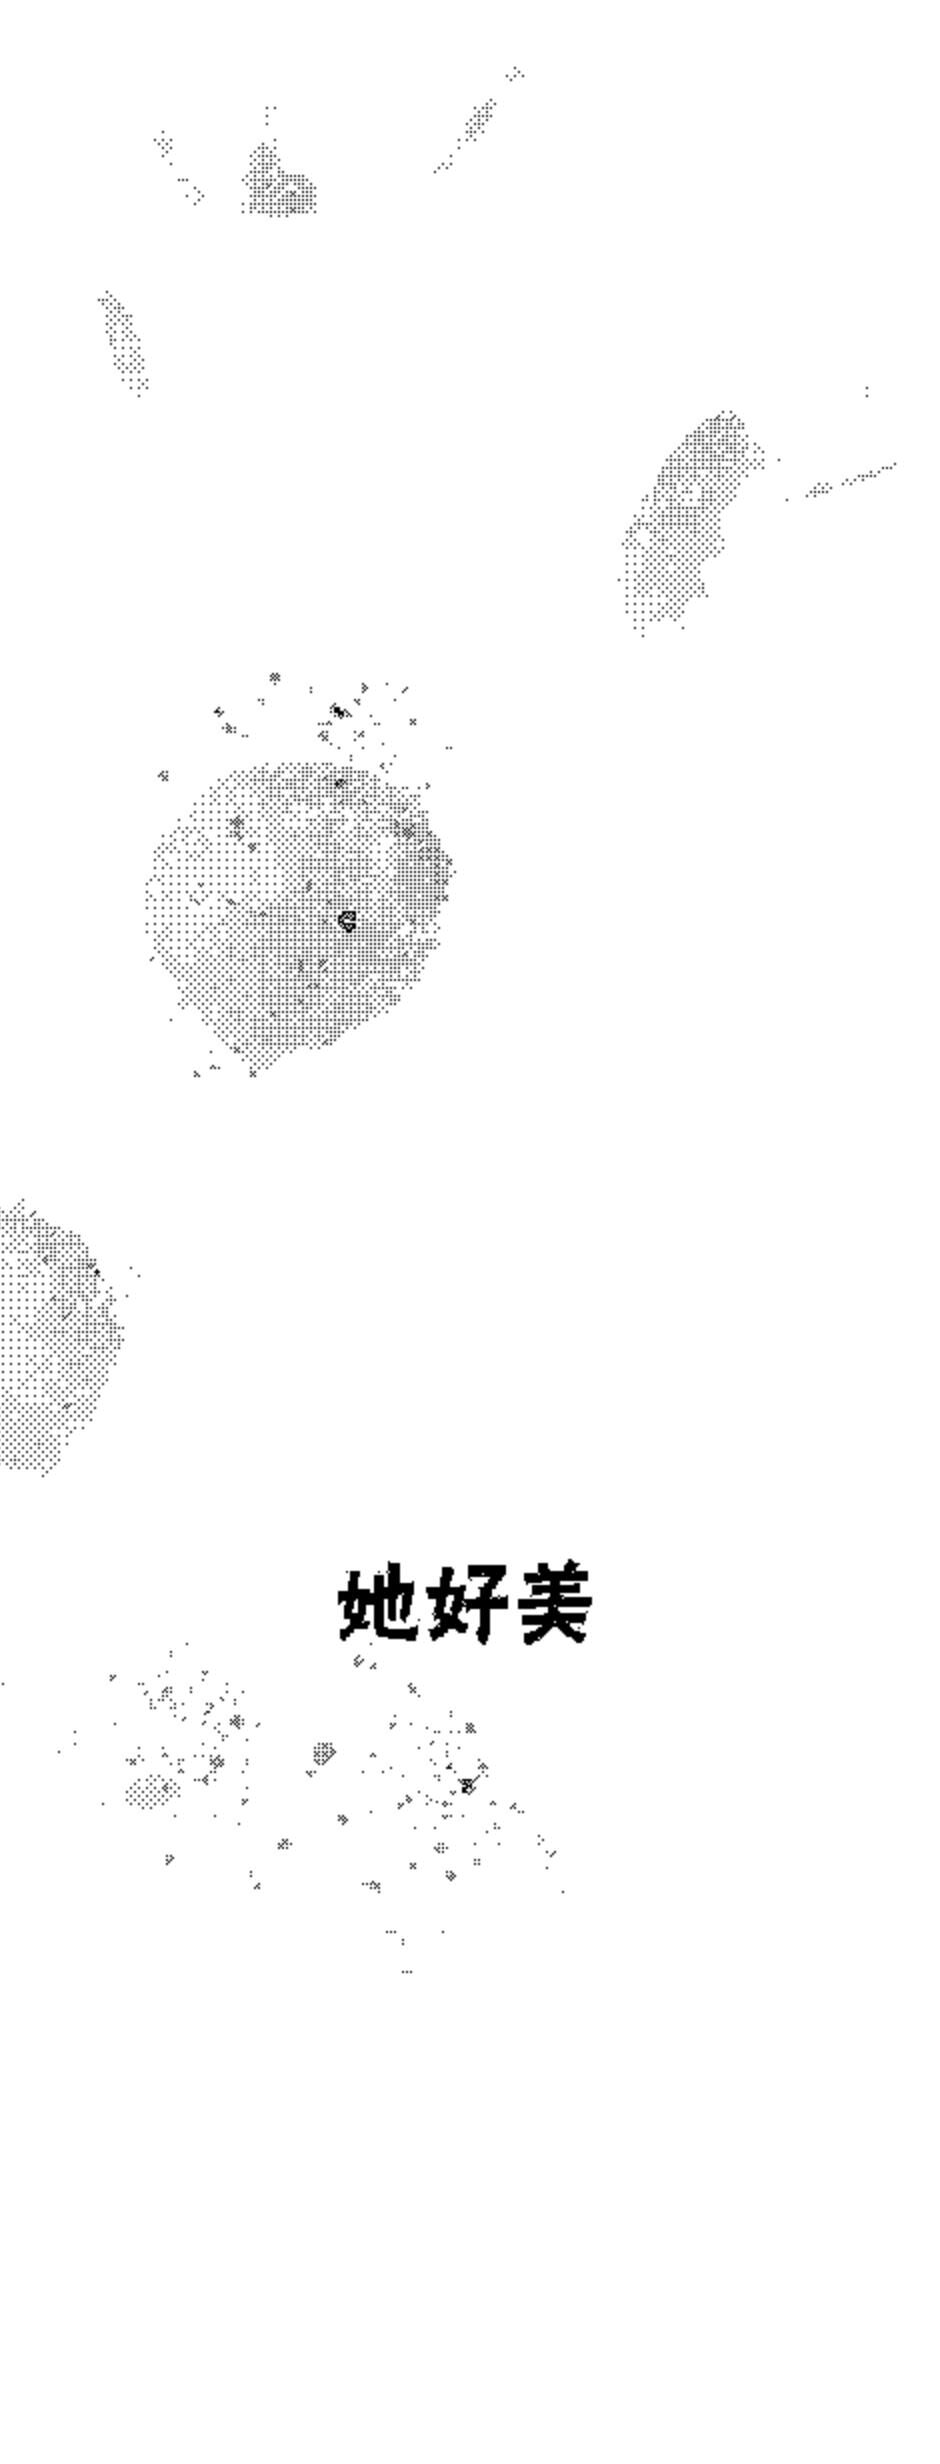

A black and white halftone graphic consisting of a dense grid of small dots. The dots are arranged in a regular, staggered pattern across the entire area, creating a uniform texture or noise effect.

This image consists of two distinct parts. The upper portion is a dark, irregular shape, possibly a shadow or a stylized graphic, with a jagged, serrated edge on the right side. The lower portion is a textured area with a halftone dot pattern, transitioning from dark to light across the frame. The overall composition is abstract and minimalist.

This image shows a halftone pattern, likely from a printer or scanner. It features a uniform grid of small, light-colored dots on a dark background. A distinct horizontal band of higher dot density runs across the upper portion of the image, creating a darker, more solid-looking area. The rest of the image is filled with the standard dot pattern.
