...而不是突然出现

现在，

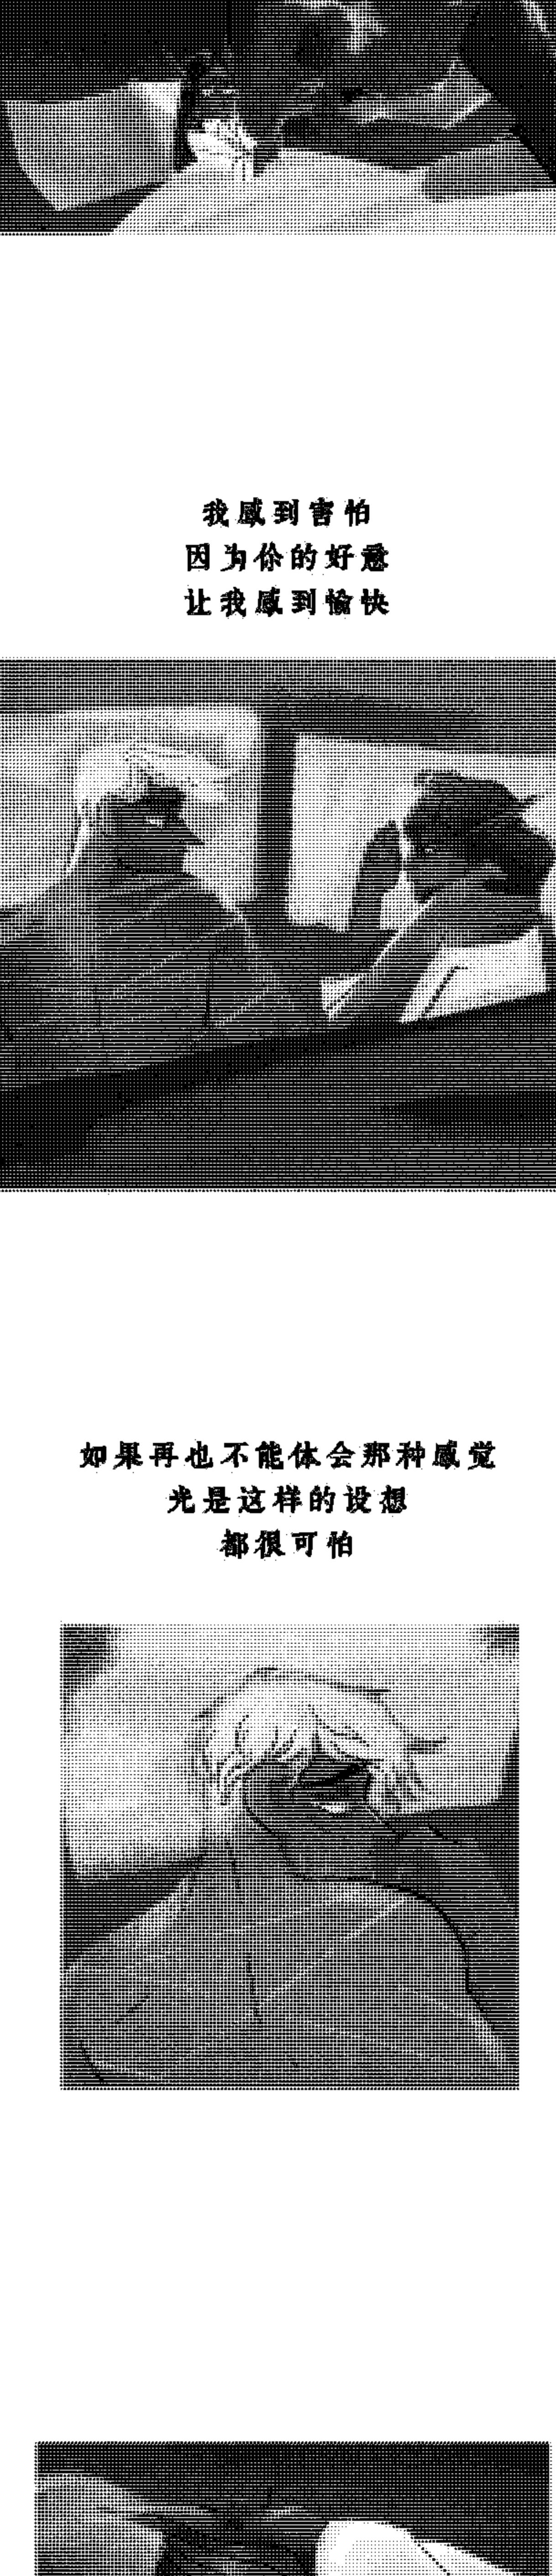

现在，我还没真正了解你

我不知道你最喜欢的食物

也不知道你讨厌什么东西

我不是特别懂爱情...

但我想我应该比现在更了解你

然后才可以说我爱你

我觉得你也不会爱上你不了解的人

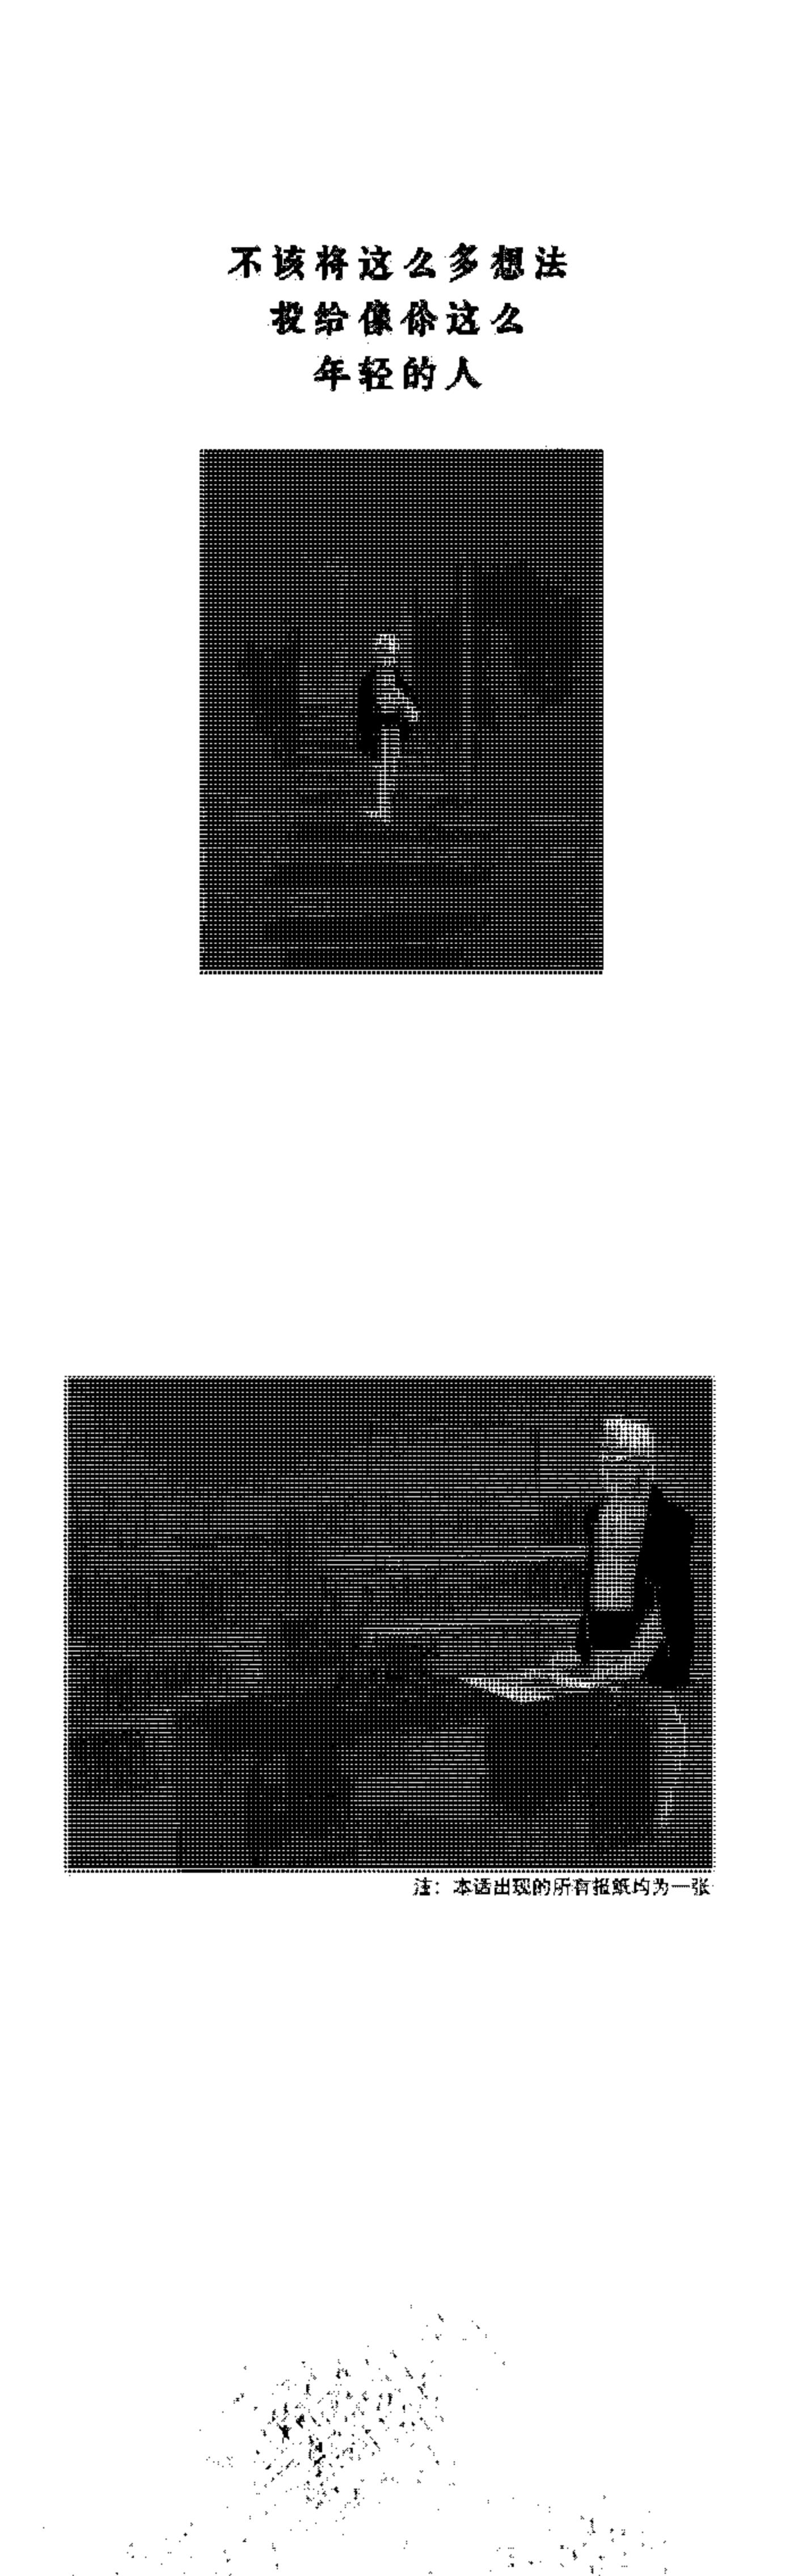

所以我只是迷恋着你

你用无比的善良与风度包容了我单方面的行动

我感到害怕因为你的善意让我感到愉快

如果再也不能体会那种感觉光是这样的设想都很可怕

对于这些
我对你的种种感觉
我很羞愧

不该将这么多想法
投给像你这么
年轻的人

注：本话出现的所有报纸均为一张

不用说也知道
我身上有很多
包袱

我感觉如果我们
是朋友...

...你就会主动帮助我

即使那会对你不利

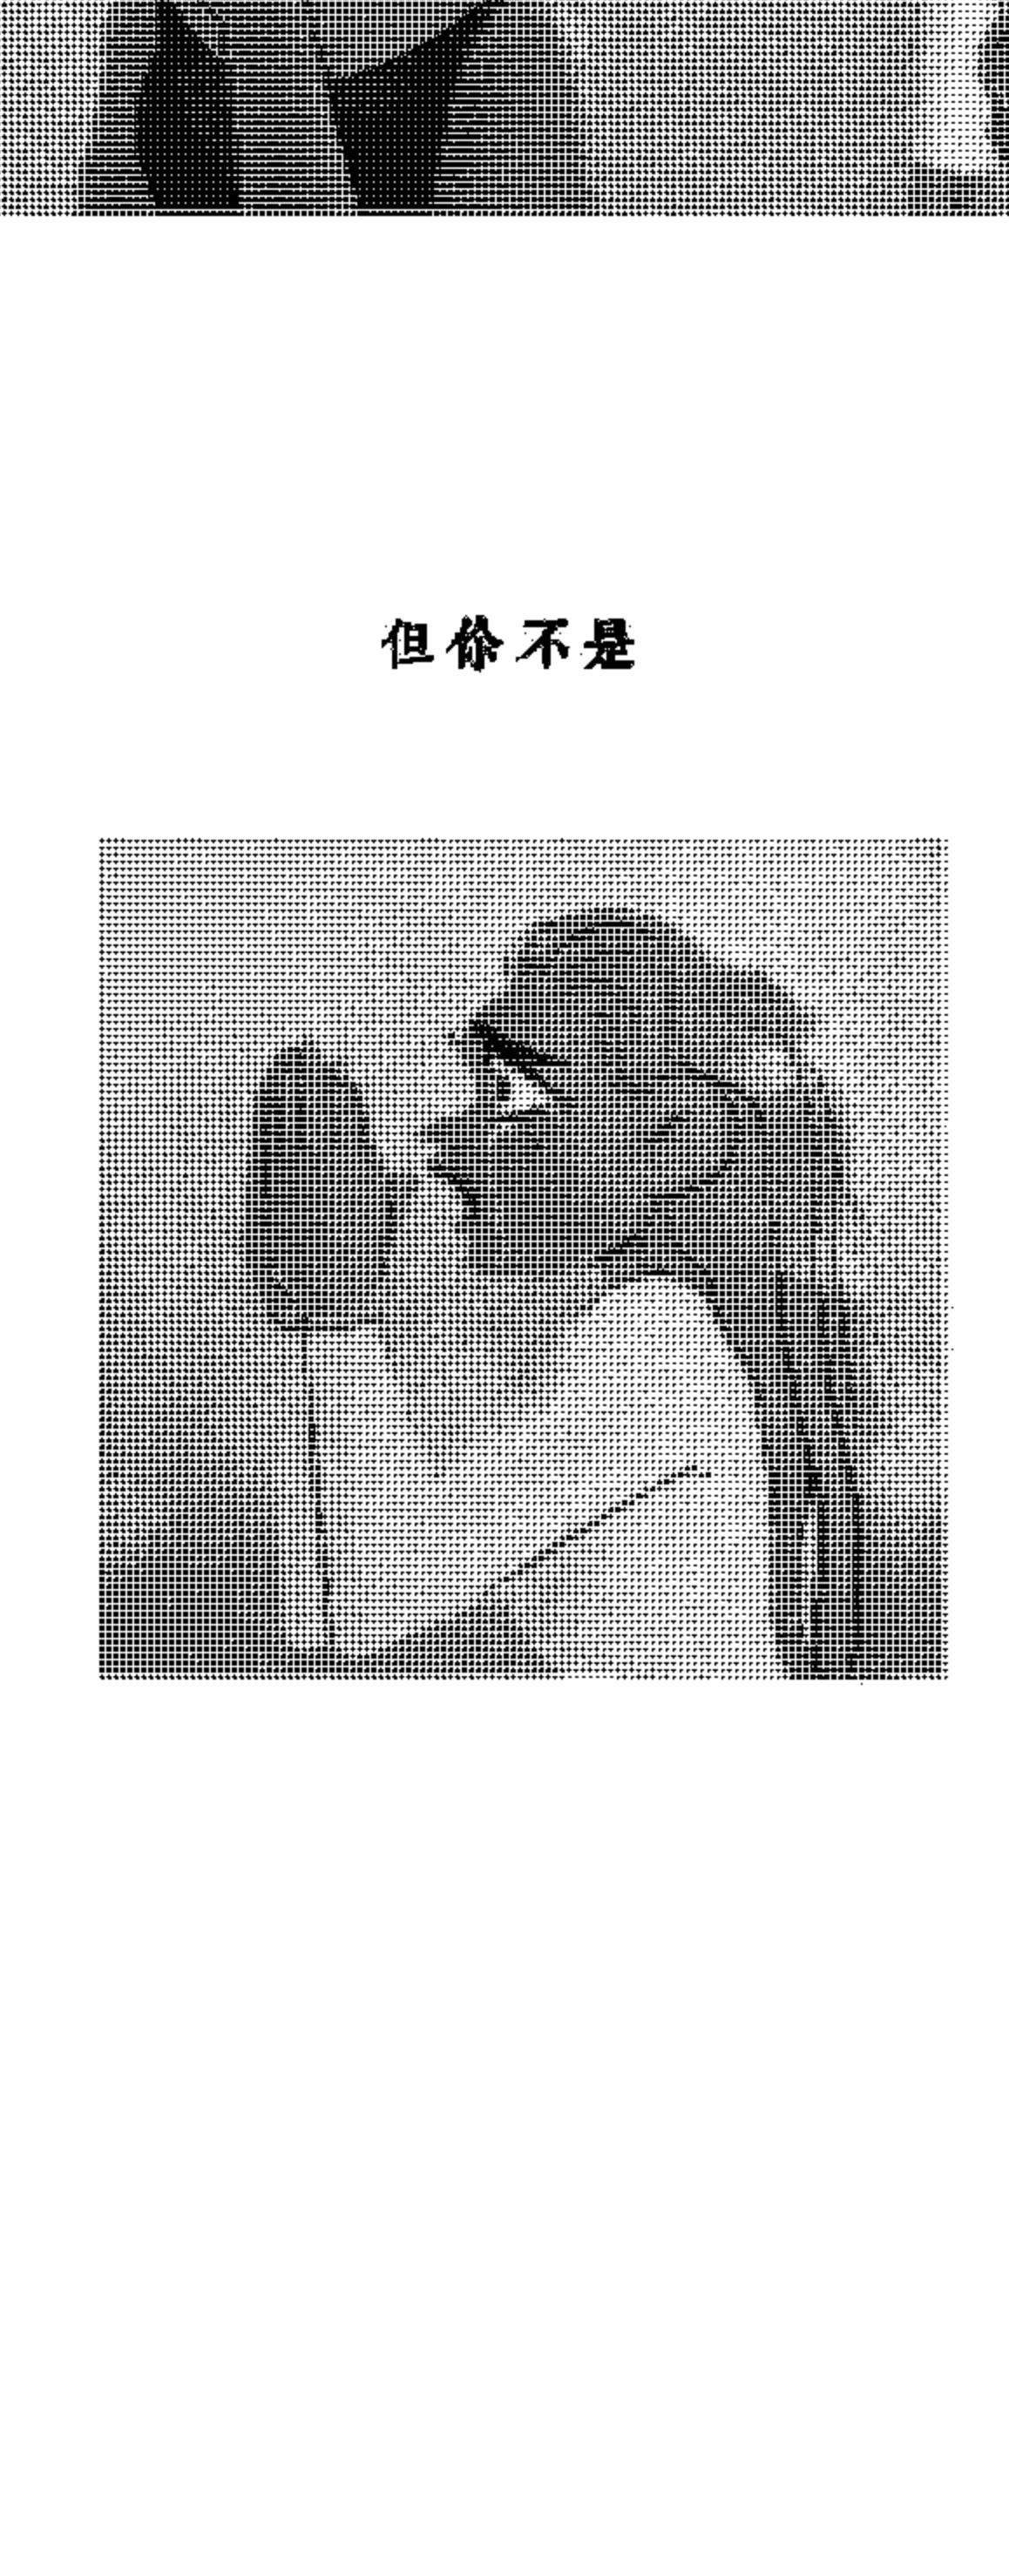

我不希望你那样做

我能给你的最好的礼物
就是让我们之间
留些空间

也就是为什么
我打算给蜜斯和我一个机会
建立合适的关系

我不知道这么做是因为
我想要她还是仅仅出于愧疚

**你与她的不同之处是
她需要我**

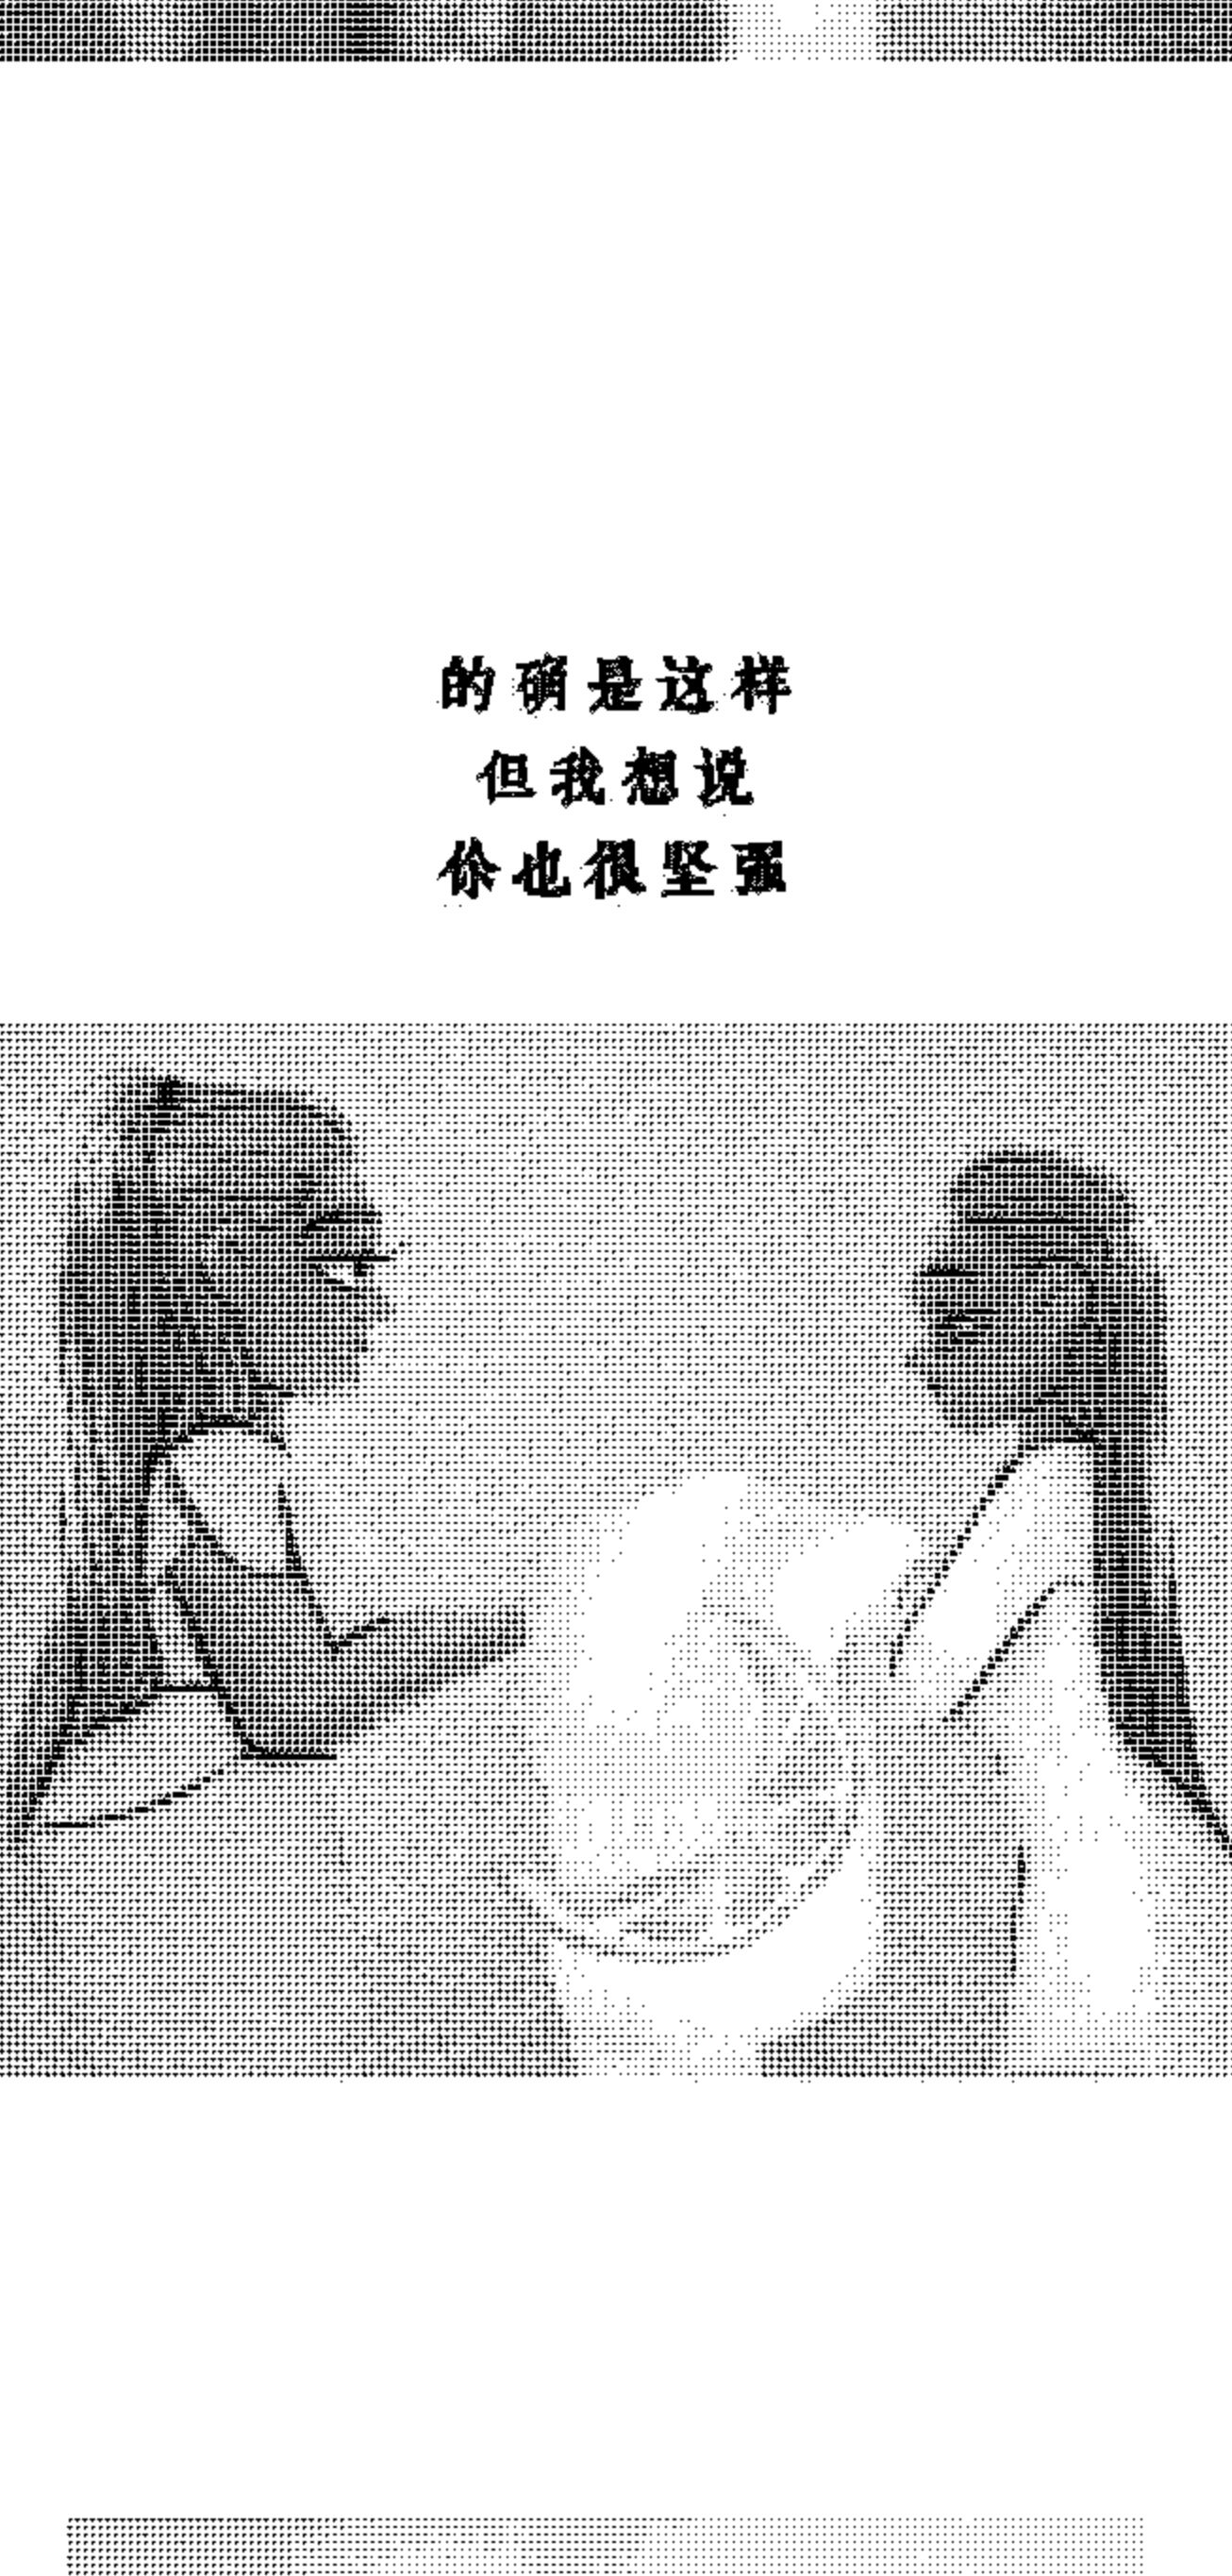

**但你不是
她的圈子**

**他们关心你
把你的好放在心里**

**我说过你患得患失
但我想说
你也很坚强**

**你有你的人生
但我想说
你也很坚强**

有瓜葛也会让你
更快乐的

尽一切可能
保护你

A black and white halftone dot pattern, likely from a printer or scanner. The background is a uniform grid of small, light gray dots. A large, dark, irregular shape, possibly a shadow or a hole in the original document, is centered in the image, appearing as a solid black area where the dots are absent or very sparse.

This image is a high-contrast, black-and-white halftone graphic. It features a large, irregular white shape set against a black background. The white area is composed of a dense grid of small black dots, giving it a textured appearance. The boundary between the white and black areas is rough and angular, suggesting a cutout or a high-resolution scan of a physical object. There are no other elements or text present in the image.

A halftone dot pattern featuring a diagonal gradient from dark to light. The dots are arranged in a grid, with the density of dots decreasing as they move from left to right. This creates a smooth, linear transition in tone across the entire image.

This image consists of a dense, uniform grid of small, dark squares. In the lower right quadrant, there is a larger, roughly triangular or irregular shape where the grid pattern is partially obscured by a lighter tone. The overall effect is reminiscent of a low-quality photocopy or a halftone print.

This image is a high-contrast, black-and-white halftone print. It features a dense grid of small dots that form the background. Overlaid on this grid are several vertical bands of varying shades of gray. A prominent feature is a large, irregularly shaped white area in the center-right, which appears to be a scan of a physical object or a specific type of document page.

This image is a high-contrast, black-and-white halftone print. It features a dense, regular grid of small dots that forms the background. Superimposed on this grid are several large, irregular, and somewhat bright white shapes. These shapes appear to be composed of a coarser dot pattern or are partially transparent. The overall effect is reminiscent of a low-quality photocopy or a stylized digital artwork.

A halftone dot pattern with a diagonal gradient. The dots are arranged in a grid, with the density of dots decreasing as they move from the top-left to the bottom-right. This creates a smooth, grayscale-like transition across the image.

A black and white halftone dot pattern where the dots are arranged in a diagonal line, creating a visual effect similar to a staircase or a series of steps. The dots are small and white, set against a dark background.

PS 神是怎么把名
从可芮改成

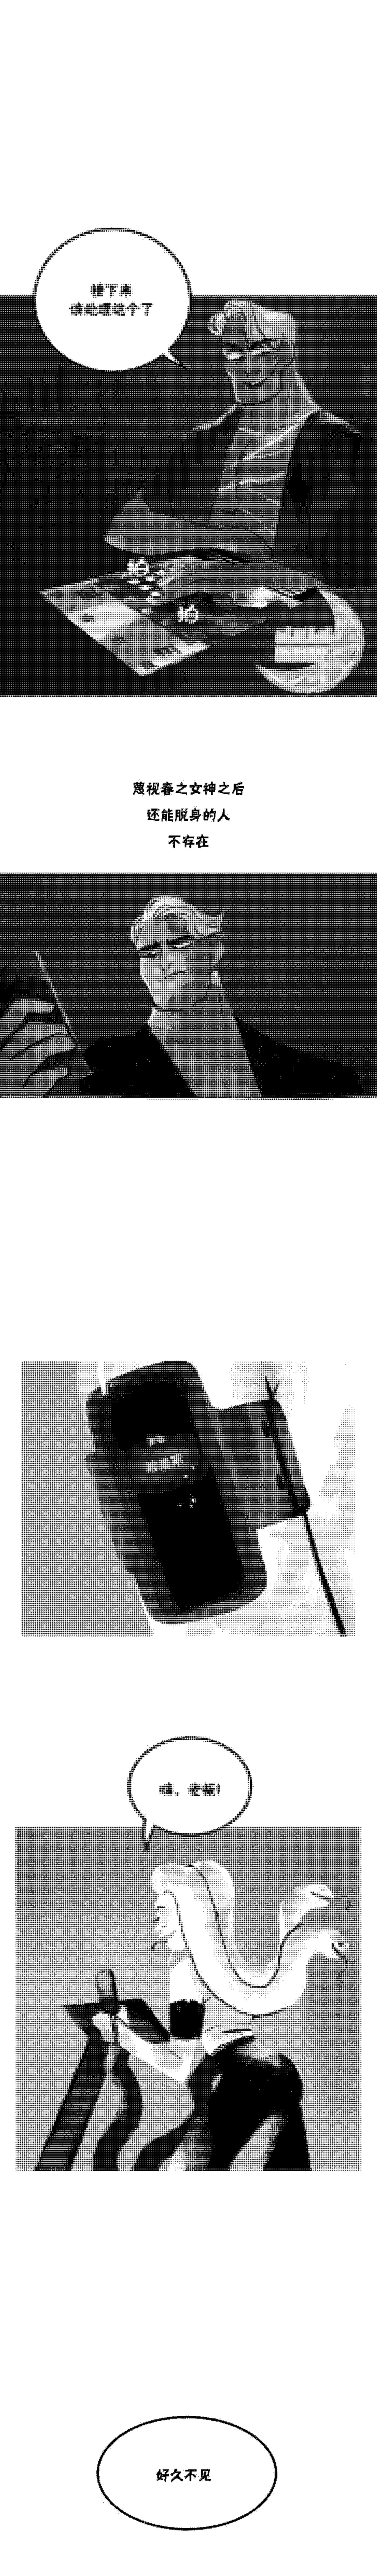

珀耳塞福涅呢？

This image is a black and white halftone representation of a grid pattern. It consists of a dense array of small, square dots arranged in horizontal rows. The density of the dots varies across the image, creating a visual effect similar to a grayscale photograph. There are some faint, darker vertical bands and a few isolated bright pixels, which are characteristic of digital noise or artifacts.

This image is a high-contrast, black-and-white halftone print. It features a dense grid of small dots, characteristic of a dot matrix printer or a low-quality digital reproduction. Through the dots, some faint, illegible text is visible, appearing as if it were printed behind the halftone pattern. The overall texture is grainy and lacks fine detail due to the dotting process.

This image is a high-contrast, black-and-white halftone print. It depicts a landscape with a large, dark mountain peak in the center-left. The foreground is filled with a dense, dark texture, possibly representing a forest or rocky terrain. In the background, there are lighter, more horizontal bands of tone, suggesting distant hills or a sky. The overall effect is grainy and has a distinct dot pattern characteristic of halftone reproduction.

The image shows a halftone dot pattern, likely from a printer or scanner. It consists of a grid of small dots where the density of dots varies across the image. The pattern is darker on the left side and lighter on the right side, creating a diagonal gradient effect. The dots are arranged in horizontal rows.
